## B Information about the perfume or aroma

### B1 Information about the perfume or aroma

Trade name
------------

 Perfume

 Aroma

### B2 The following documents should be submitted, either by e-mail or regular post, to the Swedish Society for Nature Conservation for assessment:

1) Safety Data Sheet for the perfume or the aroma.

2) A complete list of all substances present above 1.0 % by weight in the perfume or aroma. CAS numbers should always be stated. If the substance is classified according to CLP, the hazard statements should be stated too. For substances that have been added to the perfume or aroma for reasons other than their fragrance or flavouring properties, a functional category (e.g. preservative) in accordance with the criteria document should be stated. However, exact concentrations are not mandatory.

3) A complete list of all substances either classified with H317, belonging to the 26 fragrances which are subject to mandatory declaration under the Cosmetic Regulation (EC) No 1223/2009 or listed in the table below. This criterion applies irrespective of concentration (i.e. also below 1.0 %). CAS number and the exact concentration should always be stated.
