

K Corporate requirements, requirements on end products and packaging

Part K is filled by the licensee.

The Licensee shall attach requested certificates and other documentation.

Materials contained in the licensed product/product group must satisfy the demands specified in the criteria for Good Environmental Choice - Textiles 2012. This text is a translation. The Swedish version always prevails.

References are to sections of the Criterion document.

Licensee
Name of product/product group concerned by the below information

K1 Functional requirements (Section 10.1-10.3)

Set functional properties and requirements levels that applies for the product / product group
<input type="checkbox"/> Dimensional stability (shrinkage) <input type="checkbox"/> 40 °C <input type="checkbox"/> 60 °C <input type="checkbox"/> Other temperature: Value according to specification: (length, warp): (width, weft): Test method:
<input type="checkbox"/> Colour fastness to washing <input type="checkbox"/> 40 °C <input type="checkbox"/> 60 °C <input type="checkbox"/> Other temperature: Value according to specification: (change in colour): (staining): Test method:
<input type="checkbox"/> Colour fastness to water Value according to specification: (change in colour): (staining): Test method:

Colour fastness to rubbing (staining)

Value according to specification:

(wet): (dry):

Test method:

Colour fastness to perspiration

Value according to specification:

(pH 5.5): (pH 8.0):

Test method:

Colour fastness to washing

Value according to specification:

Test method:

Other:

Value according to specification:

Test method:

Test protocol that verifies the above properties and requirements levels *is enclosed*.

Washing with water

The product(s) is resistant to water

The laundry marking is washable

Washing instructions, to the consumer

Information about the **wash and care instructions** to the customer *is enclosed*.

pH

The product (s) is not worn close to skin

The product (s) is worn close to skin. The product (s) has a pH between 4.0 and 7.5

State pH:

Test method:

Test protocol *is enclosed*.

K2 Packaging material and labels (Section 10.4)

- Each product is marked with a label (tag)
- Several products are packed together, but the individual products are not labelled. Information about the requirements for Good Environmental Choice and how Good Environmental Choice can be marketed, shall be attached in the package.
